

6 Foot Pull-Type No-Till Drill

Big drill features in a compact size.

When you take a look at the competition, you'll find that you sacrifice many important features when selecting their smaller drill sizes. This is not the case with Great Plains. From the proven no-till opener systems to the durable powder coat paint finish, the full line of Compact Seeding Systems feature all of the performance advantages you'll find on the largest seeding systems.

The 6' Pull-type No-Till Drill features an end wheel design that reduces side-loading on openers when operated on contours and curves, eliminating premature opener wear. Other features like heavy duty coulters, lock-out hubs for transport and optional weight brackets create a system designed for long-term dependability and productivity in a broad range of seeding applications.

Features

4-Speed Gearbox	2 Coulters Options
Wide Steel Walkboard	Water Tight Lids
2 x 13 Press Wheels	V-Bottom Dividers
Seed Level Indicator	Lock Out Hubs
Fluted Feed Cups	Transport Lights

Options

Small Seeds	Weight Bracket
Native Grass	Air Design Disk Scrapers
Acre Meter	Seedbox Agitator
Seed Cup Plugs	Seed-Lok

Opener Options

05 Series

Specifications

Model Name	605NT
Row Spacing	7.5" (19.05 cm)
Number of Openers	9
Weight	2280 lbs (1034 kg)
Working Width	6' (1.83 m)
Transport Width	8' 6" (2.69 m)
Transport Clearance	14"
Height	5' 1" (1.55 m)
Length	11' 5" (3.48 m)
Seed Box Capacity	12 bu
Tire Size	9.5 x 15" (24.13 x 38.1 cm)
Opener Travel	6.5" (16.51 cm)
Opener Depth	0 to 3.5" (0 to 8.89 cm)
Opener Down Pressure	90-180 lbs (40.82 kg to 81.64 kg)
Coulter Depth	0 to 6" (0 to 15.24 cm)
Coulter Pre-Load	450 lbs (203 kg)

Note: Weights based on 7.5" spacing and will vary depending on options. Transport clearance will vary depending on tractor.

Main Box

Utilizes the reliable fluted feed design to efficiently seed a wide variety of seeds from peas to alfalfa.

Weight brackets

Built in weight brackets allow you to add your tractor weights to penetrate hard ground.

Small Seeds Box

The small seeds box attachment utilizes a smaller version of the fluted feed cup to accurately meter seeds such as clover, alfalfa and other small seeds.

Large Capacity Seed Boxes

Each drill features large capacity, all welded seed boxes.

Native Grass Box

The picker wheel feed design is aggressive enough to feed fluffy, native grass blends like: Big Blue Stem, Indian Grass, and Side Oats Grama. This box comes standard with an agitator to keep seed moving toward the meter.

Easy Cleanout

V-bottom seed boxes are designed for complete cleanout (Main Seed Box).
