ZERO TURN MOWERS

ZXT PRO

Lp CONSISTENTLY LEADING THE WAY...

ZXT PRO

MOW LIKE A PRO

Operator Friendly Design

The mid-mount **deck design** on the ZXT Pro puts the deck closer to the operator's line of sight for more efficient and precise operation. The **comfort grip steering levers** are designed with a wide range of adjustments to accommodate almost any size of operator. The **instrumentation** and console controls are positioned for easy visual or fingertip access. The ZXT Pro offers a Deluxe Cushion or Molded Vinyl **seat** with suspension and adjustable positioning for operator comfort and sustained productivity. A manually activated over-center lever next to the operator's seat easily and conveniently activates or releases the enclosed disc **park brake**. Rising from the seat with the blades engaged will cut engine power and stop blade rotation. The engine cannot be started with the blade PTO switch in "on" position.

Smooth Ride

The **floating front axle** provides for a smoother ride, more uniform cut and optimal traction capability by keeping all tires equally in contact with the ground over uneven terrain.

Stability

The 49" outside **tire width** provides excellent stability and maneuverability over uneven and hilly ground, while also providing good trim capability. Rapid deck **height adjustment** is achieved with the spring loaded and foot operated lever.

The Land Pride ZXT Pro Zero Turn Mower has mowing applications from farms to large estates and school campuses to industrial parks. These mowers are designed to meet the cost conscious needs of customers who are looking for the increased productivity and reliability of a commercial grade mower.

The 54" and 60" cutting decks, high quality dual hydrostatic drive system components, proven performance engine offerings, incredibly strong frame construction, independent and isolated hydraulic reservoirs, floating front axle, and comfortable seating selections make the ZXT Pro Series a Zero Turn Mower that both high-end residential and commercial class customers will truly appreciate.

The integral frame and hydraulic reservoir construction reduces component clutter under the floor pan for easy cleanout and service access.

The floating front axle offers a smoother ride in undulating conditions.

Easily lock and unlock the Floating Front Axle with the flip of a lever, located under the floor pan.

The New **ZXT^{PRO}** from Land Pride compliments our Zero Turn Mower line-up with commercial duty features, yet priced right and sized right to fit both high-end residential and commercial class users.

Warranty*

- **2 Years** Parts & Labor
- **3 Years** on
Wheel Motors & Pumps
Blade Spindle Bearings
Front Wheel Yoke Bearings
- **Lifetime** on Front Edge of Mower Deck

- Floating Front Axle
- 54" or 60" Cutting Widths
- 1" - 5" Cutting Height in 1/4" Increments
- 4 Anti-Scalp Rollers
- Two Independent Hydraulic Reservoirs
- Honda, Kawasaki or Briggs & Stratton Engine
- Air Cooled Engine
- 11 MPH Forward Speed
- 12 US Gallon Fuel Capacity
- Dual Hydrostatic Drive
- 24" Rear Drive Tires
- Optional folding ROPS

Striping Kit

An optional striping kit is available to give your cut grass that 'ball field' look. The kit easily attaches to the rear of the cutting deck. (Available mid-summer 2008)

	ZXT54	ZXT60
Overall width	55 3/8"	61 3/4"
Overall Length w/o hitch plate	83"	
Tire-to-tire width	49"	
Overall Height	48" to top of seat back and 70 1/2" to top of ROPS	
Drive Tires	24 x 10.5 - 12 Turf Tread	
Front Tires	13 x 5 - 6, Ribbed tread with roller bearings	
Fuel Capacities	12 US GAL	
Steering Type	Hydrostatic twin lever steering provides independent control of each drive wheel	
Park Brake Type	Manually activated over-center lever to wet disc brake, totally enclosed	
Ground Speed	Forward: 0-11 MPH; Reverse: 0-5.5 MPH	
Deck Drive	Single V-belt with electric clutch and spring tension idler pulley	
Seat Options	Deluxe cushion seat w/armrests or molded vinyl comfort suspension seat w/armrest	
Front Caster Wheels	Free turning with greasable roller bearings	
Front Caster Forks	5/16" steel	
Deck Thickness	11 Gauge decks with 11 gauge doubler plate and 1/4" reinforcement plate at spindle housing mounts	
Deck Trim Edges	Solid 1" x 3/8" steel for reinforced impact area	
Deck Housing Depth	5 1/8" deep (room for high-capacity mowing)	
Deck Lift	Foot-operated deck height adjustment with locking pin for setting height	
Indicators	Engine warning light and hour meter for engine run time	
Cup Holder	Two cup holders molded into left side fuel tank, accommodates nearly any cup size	
Cutting Height Adjustments	Height adjustment in 1/4" increments from 1" to 5"	
Mowing Blades	3 Heavy-duty, heat-treated, high-lift steel blades	
Blade Tip Speed	18,515 FPM	18,700 FPM
Blade Drive	Single B-Section belt drive to all three spindles, spring tension idler pulleys	
Blade Spindles	Machined ductile iron housing, 1" diameter high carbon steel shafts and greasable ball bearings	
Deck Suspension	Four point suspension from frame by mechanical linkage w/counter balance springs	
Anti-Scalp Rollers	4 Anti-scalp rollers to improve flotation in rolling and uneven terrain	

Our deck features excellent air flow capabilities for discharging cut grass, and has a lifetime warranty on the front edge of the deck.* (Standard blades shown.)

The Optional Mulching Blades and Baffle Kit are available for mulching grass and leaves. (60" Kit looks slightly different.)

A 3-bag, 12 bushel bagger with heavy-duty blower is available.

Available in 60" and 72" widths, our motion activated Snow Blade is available for snow removal and year round usage. The mower deck does not need to be removed to attach the Snow Blade.

Keep the sun off with this easily assembled, ROPS attached canopy, made with a lightweight aluminum frame and acrylic coated polyester.
