

100% wide spreading

NEW: FlexProtect flexible side covers

NEW: SemiSwing steel tine conditioning

Centre pivot drawbar

Swath Belt

## EXTRA 828T-832T-832CT-835T-835CT

### Three in one solution for EXTRA flexibility!

#### The complete range!

The all new Vicon EXTRA 800 series trailed mower conditioners were designed from the ground up with extensive input from customers around the world. The result is the launch of a complete range in working widths of 2.8, 3.2 and 3.5 m, with the new SemiSwing steel tine conditioner or rubber roller conditioner, left hand or centre pivot drawbar.

*The new EXTRA 832T with new cutterbar and steel tine conditioners*

#### Swathing, wide spreading or double swath?

The new EXTRA 828-832-835 is the ultimate solution when it comes to flexibility. The mower can be fitted with wide spreading equipment and swath belt to give as much flexibility as possible and help you cope with the alwayschanging conditions. The change over from single swathing to swath belt or wide spreading is very easy and done in short time.

#### FlexProtect

Gone are the days where the side covers were serious damaged by hitting even smaller obstacles in the field. The New Vicon FlexProtect side covers are adding a new dimension to mowing with their design made of polythene - a very flexible material that breaks away when hitting obstacles without breaking and leaving damages at the mower.

#### Aggressive conditioning:

The new Vicon steel tine conditioner is new solution when it comes to aggressive conditioning and low maintenance. It is the result of thorough testing and engineering work to reach the same aggressive conditioning known from fixed tines but with a high degree of protection of the tine when hitting foreign obstacles. The result is the new SemiSwing steel tines.

#### Centre pivot drawbar

The EXTRA C-version are supplied with a centre pivot drawbar for mowing both to the right and left sides of the tractor. This important advantage in mower design allows mowing a field in one continues process, without the need to keep opening new ?lands?.

#### The easy to use wide spreading kit

Centre pivot drawbar

The Vicon EXTRA 828, 832 and 835 can be fitted an easy to use wide spreading kit. In this way the crops is cut and spread in one operation. Changing from swathing to wide spreading is done by simply turning the spreading plate 180° (no tools required) and remove the spreading plates.

### The swath belt for improved performance

The Vicon EXTRA 828, 832 and 835 can be fitted with the versatile Vicon swath belt to place two swaths into one. In this way the large swaths for large foragers or balers can be prepared to speed up the collection of the crop.

The swath belt can raised and lowered from the tractor seat during operation. This allows you to adapt to each individual situation and requirement without wasting valuable time.
