

**357** IN-LINE  
RIPPER

The image shows a close-up of a red and black inline ripper attachment. The main body is red with a black frame. A large, circular, serrated ripper wheel is mounted on the right side. A vertical shaft extends downwards from the center, ending in a pointed tip. A single black tire with a white rim is visible on the left side. The background is a dimly lit industrial warehouse with stacks of pallets.

# 357 DISK HILLER

223232

## ASSEMBLY INSTRUCTIONS

-THE RIGHT AND LEFT SIDE PLATES MUST BE MOUNTED TO THE SHANK AS SHOWN. THIS ARRANGEMENT ASSURES THAT THE DISK HILLER WILL RAISE WITH THE SHANK, IF THE SHEAR BOLT BREAKS.

-SET THE DISK BLADES TO RUN 2 TO 3 INCHES IN THE GROUND.
